

INDEX OF SUBJECTS

Original articles

- Abnormal serum globulins in ulcerative colitis, 368
- Abstracts of papers, scientific sessions of the annual meeting of the American Society of Clinical Pathologists, October 1964, 513
- Acid-fast bacteria in smears and sections of tissue, 552
- Adenoma, bronchial, 285
- Adult carcinosarcoma of kidney, 45
- Aeromonas hydrophila* as etiologic agent in gastroenteritis, 402
- Air, role of, in photochromogenic behavior of *Mycobacterium kansasii*, 431
- Alkaline phosphatase, calcium-cobalt method for demonstration of, 324
- Alkaline phosphatase test, leukocyte, 121
- Amino acetone, chromatographic separation, determination and excretion of, 349
- Amino acids, free, in plasma and serum, 421
- Amniotic fluid in erythroblastosis fetalis, 602
- Amniotic fluid, paper electrophoretic characterization of proteins of, 125
- Anal-gland origin of colloid carcinoma, 395
- Anatomic pathology
 - acid-fast bacteria
 - anus
 - colloid carcinoma, 395
 - arteries, 64
 - aneurysms, 69
 - coronary, 156
 - bone
 - liposarcoma, 503
 - odontoid osteochondroma, 606
 - bone marrow
 - needle aspiration, 207
 - breast
 - cancer, after busulfan, 37
 - carcinoid tumor, 55
 - electron microscopy, 466
 - eye
 - vitreous humor, 137
 - ganglioneuroblastoma, 145
 - heart
 - arterial lumen, 156
 - benign rhabdomyoma, 174
 - immunofluorescence, 555
 - intestine
 - ceroid-like histiocytosis, 581
 - inflammatory polyps, 371
 - kidney
 - adult carcinosarcoma, 45
 - liver
 - biliary cirrhosis, 259
 - cirrhosis, 437
 - cystic fibrosis, 451
 - echinococcus cyst, 405
 - lung
 - adenoma, 285
 - Goodpasture's syndrome, 387
 - muscle, 92
 - mycetoma, 75, 164
 - nervous system, 92, 114
 - neuroblastoma, 481
 - nose
 - papillomas, 245
 - pancreas
 - cirrhosis, 437
 - cystic fibrosis, 451
 - pharynx
 - benign rhabdomyoma, 174
 - pheochromocytomas, 481
 - placenta
 - monochorionic twins, 277
 - prostate gland
 - carcinoma, 170
 - sinuses
 - papillomas, 245
 - skeleton
 - odontoid osteochondroma, 606
 - spleen
 - hemosiderosis, 381
 - trachea, 58
 - trauma, 69
 - urethra, 64
 - uterus, 182
 - carcinoma *in situ*, 694
 - veins, 182
- Aneurysms, innominate arterial, after blunt trauma, 69
- Angiographic technic providing simultaneous permanent cast of coronary arterial lumen, 156
- Apparatus
 - cage for foster nursing studies with mice, 332
 - electronic enumeration of erythrocytes, 118
 - graph for spectrophotometric determination of oxygen saturation of blood, 634
 - improved tape-cutting board, 295
 - inhalation of hydrogen cyanide when using AutoAnalyzer, 218
 - pneumatic tube transport system effect on validity of blood chemistry determinations, 152
 - procedure for determination of blood alcohol, 315
 - projecting specimens for demonstration (letter), 410

Original articles—(Continued)**Apparatus—(Continued)**

- reflection spectrophotometric micro method for determining oxygen saturation, 364
- spectrophotometric and colorimetric methods for evaluating lactic dehydrogenase activity in urine, 623
- Arteriosclerotic vascular disease in men, 64
- Assay of level of hemoglobin in plasma, 355

Bacteria, punch card system for identification of, 328

Benign rhabdomyoma of pharynx, 174

Beryllium case registry (letter), 409

Bile pigments, serum, paper chromatographic studies of, 22

Biliary cirrhosis, primary, 259

Bilirubin in infants, 557

Biventricular valvular lesions, 285

Blood alcohol, determination of, 315

Blood banking
group substances, 498
two-tube crossmatch, 212

Blood, graph for spectrophotometric determination of oxygen saturation of, 634

Blood group substances, relation to metastases of cancer, 498

Blood, heat-coagulated analyses of, 630

Blunt trauma causing innominate arterial aneurysms, 69

Bone marrow, needle-aspirated material from, 207

Bone, primary liposarcoma of, 503

Broad ligament, intravenous leiomyomatosis of, 182

Breast cancer after busulfan, 37

Bronchial adenoma, 285

Busulfan, breast cancer and cytologic dysplasia in organs after, 37

Cage for foster nursing studies with mice, 332

Calcium-cobalt demonstration of alkaline phosphatase, 324

Cancer, breast, after busulfan, 37

Cancer, relation between metastases of, and secretion of blood group substances, 498

Carbohydrate, serum protein-bound, micro-determination of, 320

Carcinogenesis, nickel, 228

Carcinoid tumor assay of quinonoid derivatives of 5-hydroxytryptamine, 55

Carcinoma *in situ* of endometrium, 594

Carcinoma of prostate gland, 170

Carcinosarcoma, adult, of kidney, 45

Catecholamine content and changes in ganglioneuroblastoma, 145

Cellulose acetate, electrophoresis of serum protein, 547

Cellulose-acetate medium for immunoelectrophoretic identification of human serum proteins, 237

Cerebrospinal fluid, transaminase activity in post-mortem, 360

Ceroid-like colonic histiocytosis, 581

Chemistry

abnormal serum globulins in ulcerative colitis and other diseases, 368

assay of carcinoid tumor for quinonoid derivatives of 5-hydroxytryptamine, 55

assay of level of hemoglobin in plasma, 355

calcium-cobalt method for demonstrating alkaline phosphatase, 324

chromatographic separation, determination, and daily excretion of urinary porphobilinogen, amino acetone, and δ -aminolevulinic acid, 349

detection of hematuria with paper-strip indicator, 626

determination of blood alcohol, 315

determination of iron in serum using solvent extraction, 103

electrophoresis of serum protein with cellulose acetate, 547

fluorometric estimation of magnesium in serum and urine, 541

ganglioneuroblastoma; pathologic changes and content of catecholamine, 145

graph for spectrophotometric determination of oxygen saturation of blood, 634

heat-coagulated blood and serum analyses, 630

high-voltage paper electrophoretic measurement of free amino acids in plasma and serum, 421

immunoelectrophoretic identification of human serum proteins as a cellulose-acetate medium, 237

inhalation of hydrogen cyanide when using AutoAnalyzer, 218

in vitro immunologic tests for pregnancy, 215

measurements of VMA for diagnosis of pheochromocytoma and neuroblastoma, 481

microdetermination of serum protein-bound carbohydrate, 320

micro method for determining oxygen saturation with reflection spectrophotometry, 364

modified immunologic test for pregnancy, 109

nickel carcinogenesis, 228

paper chromatographic studies of 3 serum bile pigments, 22

paper electrophoretic characterization of proteins of human amniotic fluid, 125

physical properties of amniotic fluid in erythroblastosis fetalis, 602

pneumatic tube transport system effect on validity of blood chemistry determinations, 152

- pools of frozen serum in quality control in clinical chemistry, 129
 - postmortem interval; study of potassium in vitreous humor, 137
 - properties of activity of 5'-nucleotidase in human serum, 572
 - rapid and simple determination of bilirubin in infants, 557
 - range of normal values in quality control of clinical chemistry, 133
 - safer method for preparing radioactive liquid samples for well counting, 637
 - spectrophotometric and colorimetric evaluation of lactic dehydrogenase activity in urine, 623
 - studies of serum proteins, 1
 - trace metal patterns in disease states, 437
 - transaminase activity in postmortem cerebrospinal fluid, 360
- Children, pathology of low tracheostomy in, 58
- Chromosome mini-cultures, 434
- Chromosomes, lack of trypsin effect on, 407
- Chromatographic, paper, studies of 3 serum bile pigments, 22
- Chromatographic separation of urinary porphobilinogen, amino acetone, and δ -aminolevulinic acid, 349
- Cirrhosis, primary biliary, 259
- Colitis, ulcerative, increased adsorption affinity of abnormal serum globulins in, 368
- Colonic histiocytosis, ceroid-like, 581
- Colloid carcinoma of anal-gland origin, 395
- Cornification, urethral, 64
- Coronary arterial lumen, angiographic technic for simultaneous permanent cast of, 156
- Correction, 188
- Crossmatch, two-tube, 212
- Cyanide, hydrogen, inhalation of, when using AutoAnalyzer, 218
- Cystic fibrosis, ultrastructural changes of pancreas and liver in, 451
- Cytology
 - breast cancer and cytologic dysplasia in many organs after busulfan (Myleran), 37
 - chromosome mini-cultures, 434
 - integration of exfoliative cytology into teaching pathology to medical students, 509
 - lack of trypsin effect on chromosomes, 407
- Determination of urinary porphobilinogen, amino acetone, and δ -aminolevulinic acid, 349
- Dysplasia, cytologic, in many organs after busulfan, 37
- Echinococcus cyst of liver, infestation, with trematode eggs, 405
- Electronic enumeration of erythrocytes, 118
- Electron microscopy
 - pulmonary lesion with Goodpasture's syndrome, 387
 - ultrastructural changes of pancreas and liver in cystic fibrosis, 451
 - utility of formalin-fixed surgical and autopsy specimens, 466
- Electrophoresis of serum protein with cellulose acetate, 547
- Embedding technic for immunofluorescent studies of minute specimens of tissue collected with a needle, 555
- Endometrium, carcinoma *in situ* of, 594
- Enteric organisms, multi-agar columns for identifying single colonies, 298
- Enzymology
 - calcium-cobalt demonstration of alkaline phosphatase, 324
 - leukocyte alkaline phosphatase test, 121
 - properties of activity of 5'-nucleotidase in human serum, 572
 - spectrophotometric and colorimetric evaluation of lactic dehydrogenase activity in urine, 623
 - transaminase activity in postmortem cerebrospinal fluid, 360
- Erythroblastosis fetalis, physical properties of amniotic fluid in, 602
- Erythrocytes, electronic enumeration of, 118
- Estrogenic hormones in men, 64
- Excretion of urinary porphobilinogen, amino acetone, and δ -aminolevulinic acid, 349
- Exfoliative cytology, integration of, into teaching pathology to medical students, 509
- Fairleigh Dickinson university program for evaluating hospital medical technology schools (letter), 408
- Filariasis, 333
- Fluorometric estimation of magnesium in serum and urine, 541
- Formalin-fixed surgical and autopsy specimens for electron microscopy, 466
- Free amino acids in plasma and serum, high-voltage paper electrophoretic measurement of, 421
- Ganglioneuroblastoma, 145
- Gastroenteritis with *Aeromonas hydrophila* as etiologic agent, 402
- Gel double diffusion testing for tuberculosis, 340
- Genetics
 - chromosome mini-cultures, 434
 - lack of trypsin effect on chromosomes, 407
- Goodpasture's syndrome associated with pulmonary lesion, 387
- Heat-coagulated analyses of blood and serum, 630

Original articles—(Continued)**Hematology**

- assay of level of hemoglobin in plasma, 355
- electronic enumeration of erythrocytes, 118
- identification of intranuclear hemoglobin, 559
- plasma prothrombin activation in hemorrhagic disorders, 561
- quality control of prothrombin time determinations, 221
- standardization of leukocyte alkaline phosphatase test, 121
- tissue sections of needle-aspirated material from bone marrow, 207

Hematuria, detection of, with paper-strip indicator, 626**Hemoglobin, identification of intranuclear, 559****Hemoglobin in plasma, assay of level of, 355****Hemorrhagic disorders, plasma prothrombin activation in, 561****Hemosiderosis of spleen in stillborn and newborn infants, 381****Hepatic cirrhosis in alcoholic patients, 437****High-voltage paper electrophoretic measurement of free amino acids in plasma and serum, 421****Histiocytosis, ceroid-like colonic, 581****Histogenesis of pathology of primary biliary cirrhosis, 259****Histologic diagnosis of mycetoma, 164****Hormones, estrogenic, in men, 64****Hydrogen cyanide, inhalation of, when using AutoAnalyzer, 218****5-Hydroxytryptamine, assay of carcinoid tumor for quinonoid derivatives of, 55****Hyperserotoninemia of bronchial adenoma, 285****Identification of bacteria with punch card system, 328****Identification of species of microfilariae, 333****Immunoelectrophoretic identification of human serum proteins, 237****Immunohematology****influenza vaccine and isoimmunization (letter), 612****relation between metastases of cancer and secretion of blood group substances, 498****two-tube crossmatch, 212****Immunology****gel double diffusion testing for tuberculosis, 340****immunoelectrophoretic identification of human serum proteins, 237****immunofluorescent studies of minute specimens, 555****influenza vaccine and isoimmunization (letter), 612*****in vitro* immunologic tests for pregnancy, 215****modified immunologic test for pregnancy, 109****Infants, determination of bilirubin in, 557****Infestation of echinococcus cyst of liver with trematode eggs, 405****Inflammatory polyps of intestinal tract, 371****Influenza vaccine and isoimmunization (letter), 612****Inhalation of hydrogen cyanide when using AutoAnalyzer, 218****Innominate arterial aneurysms after blunt trauma, 69****Intranuclear hemoglobin, identification of, 559****Intravenous leiomyomatosis of uterus and broad ligament, 182*****In vitro* immunologic tests for pregnancy, 215****Iron in serum, determination of, with solvent extraction, 103****Iron, precipitates in Prussian blue reaction for, 640****Iron, storage of, in alcoholic patients, 437****Kidney, adult carcinosarcoma of, 45****Lactic dehydrogenase activity in urine, 623****Leiomyomatosis, intravenous, of uterus and broad ligament, 182****Leukocyte alkaline phosphatase test, 121****Liposarcoma of bone, 503****Liver, ultrastructural changes of, in cystic fibrosis, 451****Lower motor neuron disease, 92****Low tracheostomy in children, 58****Magnesium in serum and urine, fluorometric estimation of, 541****Metastases of cancer, relation to blood group substances, 498****Measurements of VMA for diagnosis of pheochromocytoma and neuroblastoma, 481****Medical technology school, Fairleigh Dickinson University program for evaluating (letter), 408****Microbiology*****Aeromonas hydrophila* as etiologic agent in severe gastroenteritis, 402****determination of potential pathogenicity of staphylococci, 346****gel double diffusion testing for tuberculosis, 340****histologic diagnosis of mycetoma, 164****punch card system for identification of bacteria, 328****rapid staining of acid-fast bacteria in smears and tissue, 552****role of air in photochromogenic behavior of *Mycobacterium kansasii*, 431****multi-agar columns for identifying single colonies of enteric organisms, 298****mycetoma in the United States, 75**

- serologic reactions in rabbits inoculated with *Treponema pallidum*, 33
- Microdetermination of serum protein-bound carbohydrate, 320
- Microfilariae, morphologic characteristics of, 333
- Micro method for determining oxygen saturation, 364
- Mini-cultures, chromosome, 434
- Monochorionic twin placentation, 277
- Motor neuron disease, lower, 92
- Multi-agar columns for identifying single colonies of enteric organisms, 298
- Muscle, sampling of, at autopsy in lower motor neuron disease, 92
- Mycology
- histologic diagnosis of mycetoma, 164
 - mycetoma in the United States, 75
- Myleran, breast cancer and cytologic dysplasia in many organs after, 37
- Needle-aspirated material from bone marrow, 207
- Needle, immunofluorescent studies of minute specimens collected with, 555
- Nervous tissue, permanent plastic mounts of, after differential gross staining, 114
- Neuroblastoma, measurements of VMA for diagnosis of, 481
- Newborn, hemosiderosis restricted to spleen in, 381
- Nickel carcinogenesis, 228
- Normal values, range of, in quality control of clinical chemistry, 133
- Nose, papillomas of, 245
- 5-Nucleotidase in human serum, 572
- Odontoid osteochondroma causing sudden death, 606
- Osteoblastic metastases, 285
- Oxygen saturation of blood, graph for spectrophotometric determination of, 634
- Oxygen saturation, reflection spectrophotometric micro determination of, 364
- Pancreas, ultrastructural changes of, in cystic fibrosis, 451
- Pancreatic cirrhosis in alcoholic patients, 437
- Paper chromatographic studies of the 3 serum bile pigments, 22
- Paper electrophoretic characterization of proteins of human amniotic fluid, 125
- Papillomas of the nose and paranasal sinuses, 245
- Para-nitrophenyl phosphate as substrate, 324
- Parasitology
- infestation of echinococcus cyst of liver with trematode eggs, 405
 - morphologic characteristics of microfilariae, 333
- Pathogenicity of staphylococci, 346
- Pharynx, benign rhabdomyoma of, 174
- Pheochromocytoma, measurements of VMA for diagnosis of, 481
- Phosphatase, alkaline, calcium-cobalt demonstration of, 324
- Phosphatase test, leukocyte alkaline, 121
- Photochromogenic behavior of *Mycobacterium kansasii*, 431
- Pigments, paper chromatographic studies of the 3 serum bile, 22
- Placentation, monochorionic twin, 277
- Plasma, assay of level of hemoglobin in, 355
- Plasma, free amino acids in, 421
- Plasma prothrombin activation in hemorrhagic disorders, 561
- Plastic mounts of nervous tissue, 114
- Pneumatic tube transport effect on validity of blood chemistry determinations, 152
- Polyps, inflammatory, of intestinal tract, 371
- Pools of frozen serum in quality control in clinical chemistry, 129
- Postmortem interval; study of potassium in vitreous humor, 137
- Precipitates in Prussian blue reaction for iron, 640
- Pregnancy, modified immunologic test for, 109
- Pregnancy, two *in vitro* immunologic tests for, 215
- Procedures
- abnormal serum globulins in ulcerative colitis and other diseases, increased adsorption affinity of, 368
 - angiographic technic providing simultaneous permanent cast of coronary arterial lumen, 156
 - assay of carcinoid tumor for quinonoid derivatives of 5-hydroxytryptamine, 55
 - assay of level of hemoglobin in plasma, 355
 - beryllium case registry (letter), 409
 - cage for use in foster nursing studies with mice, 332
 - calcium-cobalt demonstration of alkaline phosphatase, using para-nitrophenyl phosphate as substrate, 324
 - chromatographic separation, determination, and daily excretion of urinary porphobilinogen, amino acetone, and δ -aminolevulinic acid, 349
 - comparison of 2 *in vitro* immunologic tests for pregnancy, 215
 - culture method for chromosome counts from small amounts of peripheral blood, 434
 - detection of hematuria with a paper-strip indicator, 626
 - determination of iron in serum, using solvent extraction, 103
 - determination of potential pathogenicity of staphylococci, 346
 - dextran gel chromatographic fractionations of

Original articles—(Continued)**Procedures—(Continued)**

- nickel in ultracentrifugal supernatants of lung and liver, 228
- electronic enumeration of erythrocytes, 118
- electrophoresis of serum protein with cellulose acetate, 547
- embedding technic for immunofluorescent studies of minute specimens of tissue collected with a needle, 555
- fluorometric estimation of magnesium in serum and urine, 541
- formalin-fixed surgical and autopsy specimens for electron microscopy, 466
- gel double diffusion testing for tuberculosis, 340
- graph for determining oxygen saturation of blood with spectrophotometry, 634
- heat-coagulated analyses of blood and serum, 630
- high-voltage paper electrophoretic measurement of free amino acids in plasma and serum, 421
- identification of intranuclear hemoglobin, 559
- identification of species on basis of staining and other morphologic characteristics of microfilariae, 333
- immuno-electrophoretic identification of human serum proteins on a cellulose-acetate medium, 237
- improved tape-cutting board, 295
- influenza vaccine and isoimmunization (letter), 612
- lack of trypsin effect on chromosomes, 407
- measurements of VMA for diagnosis of pheochromocytoma and neuroblastoma, 481
- microdetermination of serum protein-bound carbohydrate, 320
- micro method determination of oxygen saturation with reflection spectrophotometry, 364
- modified immunologic test for pregnancy, 109
- multi-agar columns for identifying single colonies of enteric organisms, 298
- paper chromatographic studies of the 3 serum bile pigments, 22
- paper electrophoretic characterization of proteins of human amniotic fluid, 125
- pathology of low tracheostomy in children, 58
- permanent plastic mounts of nervous tissue after differential gross staining, 114
- plasma prothrombin activation in hemorrhagic disorders, 561
- pneumatic tube transport system, effect on validity of blood chemistry determinations, 152
- pools of frozen serum in quality control in clinical chemistry, 129
- potential danger of inhalation of hydrogen cyanide when using AutoAnalyzer, 218
- precipitates in Prussian blue reaction for iron, 640
- preparation of tissue sections of needle-aspirated material from bone marrow, 207
- projecting specimens for demonstration (letter), 410
- punch card system for identification of bacteria, 328
- quality control of determinations of prothrombin time, 221
- range of normal values in quality control of clinical chemistry, 133
- rapid and simple determination of bilirubin in infants, 557
- rapid staining of acid-fast bacteria in smears and sections of tissue, 552
- role of air in photochromogenic behavior of *Mycobacterium kansasii*, 431
- safer method for preparing radioactive liquid samples for well counting, 637
- sampling of muscle at autopsy in lower motor neuron disease, 92
- serologic reactions in rabbits inoculated with *Treponema pallidum*, 333
- simple apparatus and procedure for determining blood alcohol, 315
- spectrophotometric and colorimetric evaluation of lactic dehydrogenase activity in urine, 623
- studies of serum proteins, 1
- standardization of leukocyte alkaline phosphatase test, 121
- transaminase activity in postmortem cerebrospinal fluid, 360
- two-tube crossmatch, 212
- Primary biliary cirrhosis, 259
- Primary liposarcoma of bone, 503
- Projecting specimens for demonstration (letter), 410
- Prostate gland, carcinoma of, in patients over 80, 170
- Proteins, immuno-electrophoretic identification of human serum, on cellulose-acetate medium, 237
- Proteins of human amniotic fluid, paper electrophoretic characterization of, 125
- Prothrombin time, quality control of determinations of, 221
- Pulmonary lesion in patient with Goodpasture's syndrome, 387
- Punch card system for identifying bacteria, 328
- Quality control of determinations of prothrombin time, 221

- Quality control in clinical chemistry, pools of frozen serum in, 129
- Quinonoid derivatives of 5-hydroxytryptamine, assay of carcinoid tumor for, 55
- Rabbits, serologic reactions in, inoculated with *Treponema pallidum*, 33
- Radioactive liquid samples for well counting, safer method of preparation, 637
- Range of normal values in quality control of clinical chemistry, 133
- Reflection spectrophotometric micro method for determining oxygen saturation, 364
- Research in clinical pathology (editorial), 610
- Rhabdomyoma, benign, of pharynx, 174
- Serology
- immuno-electrophoretic identification of human serum proteins on cellulose-acetate medium, 237
 - serologic reactions in rabbits inoculated with *Treponema pallidum*, 33
- Serum, activity of 5'-nucleotidase in human, 572
- Serum bile pigments, paper chromatographic studies of, 22
- Serum, determination of iron in, using solvent extraction, 103
- Serum, fluorometric estimation of magnesium in, 541
- Serum globulins, increased adsorption affinity of abnormal, in ulcerative colitis and other diseases, 368
- Serum, heat-coagulated analyses of, 630
- Serum protein-bound carbohydrate, evaluation of microdetermination of, 320
- Serum protein electrophoresis with cellulose acetate, 547
- Serum proteins; recent advances in clinical interpretation of electrophoretic fractionations, 1
- Sinuses, papillomas of paranasal, 245
- Solvent extraction determination of iron in serum, 103
- Specimens, formalin-fixed surgical and autopsy, for electron microscopy, 466
- Spleen, hemosiderosis of, in stillborn and newborn infants, 381
- Staining
- acid fast bacteria in smears and sections of tissue, 552
 - combination Romanovsky and benzidine-nitroprusside stain for identifying intranuclear hemoglobin, 559
 - identification of species on basis of staining and other morphologic characteristics of microfilariae, 333
 - permanent plastic mounts of nervous tissue after differential gross staining, 114
 - precipitates in the Prussian blue reaction for iron, 640
- Staphylococci, determination of potential pathogenicity of, 346
- Stillborn, hemosiderosis restricted to the spleen in, 381
- Supernatants, ultracentrifugal, of lung and liver, 228
- Tape-cutting board, improved, 295
- Teaching exfoliative cytology to medical students, 509
- Tests
- detection of hematuria with a paper-strip indicator, 626
 - gel double diffusion testing for tuberculosis, 340
- Trace metal patterns in disease states, 437
- Tracheostomy, low, in children, 58
- Transaminase activity in postmortem cerebrospinal fluid, 360
- Transport, pneumatic tube, effect on blood chemistry determinations, 152
- Trauma, blunt, innominate arterial aneurysms occurring after, 69
- Trematode egg infestation of echinococcus cyst of the liver, 405
- Treponema pallidum*, serologic reactions in rabbits inoculated with, 33
- Trypsin effect on chromosomes, lack of, 407
- Tuberculosis, gel double diffusion testing for, 340
- Tumor, carcinoid, assay of, for quinonoid derivatives of 5-hydroxytryptamine, 55
- Twin placentation, diagnosis of monochorionic, 277
- Two *in vitro* immunologic tests for pregnancy, 215
- Two-tube crossmatch, 212
- Ultracentrifugal supernatants of lung and liver, 228
- Ulcerative colitis, increased adsorption affinity of abnormal serum globulins in, 368
- Ultrastructural changes of pancreas and liver in cystic fibrosis, 451
- Urethral cornification and arteriosclerotic vascular disease in men, 64
- Urinalysis
- chromatographic separation, determination, and daily excretion of urinary porphobilinogen, amino acetone and δ -aminolevulinic acid, 349
 - detection of hematuria with a paper-strip indicator, 626
 - lactic dehydrogenase activity in urine, 623
- Urine, fluorometric estimation of magnesium in, 541
- Uterus and broad ligament, intravenous leiomyomatosis of, 182

Original articles—(Continued)

Utility of formalin-fixed surgical and autopsy specimens for electron microscopy, 466

Vanilmandelic acid measurements for diagnosis of pheochromocytoma and neuroblastoma, 481

Vitreous humor, study of potassium in, during the postmortem interval, 137

Wilms' tumor, adult, of kidney, 45

Case reports

Adult carcinosarcoma (adult Wilms' tumor) of the kidney, 45

Aeromonas hydrophila as the etiologic agent in a case of severe gastroenteritis, 402

Benign rhabdomyoma of the pharynx. A case report, review of the literature, and comparison with cardiac rhabdomyoma, 174

Breast cancer and cytologic dysplasia in many organs after busulfan (Myleran), 37

Bronchial adenoma with hyperserotoninemia, biventricular valvular lesions, and osteoblastic metastases, 285

Ceroid-like colonic histiocytosis, 581

Colloid carcinoma of anal-gland origin. Report of a case and review of the literature, 395

Infestation of echinococcus cyst of the liver with trematode eggs. A previously undescribed occurrence, 405

Inflammatory polyps of the intestinal tract, 371

Innominate arterial aneurysms occurring after blunt trauma, 69

Intravenous leiomyomatosis of the uterus and broad ligament. Report of a case, 182

Mycetoma in the United States. A review and report of seven additional cases, 75

Odontoid osteochondroma causing sudden death. Report of a case and review of the literature, 606

Primary liposarcoma of bone. Report of a case, 503

The pulmonary lesion in a patient with Goodpasture's syndrome. As studied with the electron microscope, 387

Laboratory suggestions

A cage for use in foster nursing studies with mice, 332

Multi-agar columns for identifying single colonies of enteric organisms, 298

Editorial

Research in clinical pathology, 610

Letters to the Editor

Beryllium case registry, 409

Influenza vaccine and isoimmunization, 612

Projecting specimens for demonstration, 410

TABLE OF CONTENTS

JULY TO DECEMBER, 1964

Number 1, July 1964

Studies of the Serum Proteins. VI. Recent Advances in Clinical Interpretations of Electrophoretic Fractionations. F. WILLIAM SUNDERMAN, JR.	1
Paper Chromatographic Studies of the Three Serum Bile Pigments. LENARD L. POLITTE AND FRED V. LUCAS	22
Course of the Serologic Reactions in Rabbits Inoculated with Different Numbers of <i>Treponema pallidum</i> . J. F. KENT, J. B. DEWEERDT, W. B. LAWSON, AND W. H. KINCH	33
Breast Cancer and Cytologic Dysplasia in Many Organs After Busulfan (Myleran). BILL M. NELSON AND GOULD A. ANDREWS	37
Adult Carcinosarcoma (Adult Wilms' Tumor) of the Kidney. DANIEL NEWMAN AND FRANK VELLIOS	45
Assay of Carcinoid Tumor for Quinonoid Derivatives of 5-Hydroxytryptamine. HAMPTON R. BATES, JR., AND RICHARD F. CLARK	55
Pathology of Low Tracheostomy in Children. CARL TEPLITZ, BURTON S. EPSTEIN, LAWRENCE R. ROSE, WALTER E. SWITZER, AND JOHN A. MONCREIF	58
Estrogenic Hormones, Urethral Cornification, and Arteriosclerotic Vascular Disease in Men. FREDERIC G. DALLDORF	64
Innominate Arterial Aneurysms Occurring After Blunt Trauma. H. ALEXANDER HEGGTVEIT, JAMES S. CAMPELL, AND G. DAVID HOOPER	69
Mycetoma in the United States. A Review and Report of Seven Additional Cases. WILLIAM O. GREEN, JR., AND T. ELWYN ADAMS	75
Sampling of Muscle at Autopsy in Cases of Lower Motor Neuron Disease. J. BRUCE BECKWITH	92
News and Notices	93
<i>In Memoriam:</i>	
William F. Jacobs, M.D. SAMUEL SANES	94
Max Appel, M.D. HERBERT P. FRIEDMAN	95
Walter C. Nelson, M.D. VICTOR W. BERGSTROM	96
Frank Rouch Patton, M.D. MRS. JOHN MINNIS	96
Organization Section	98

Technical Section

Determination of Iron in Serum Using Solvent Extraction. DONALD T. FORMAN	103
Modified Immunologic Test for Pregnancy. JOHN B. HENRY, WILLIAM A. LITTLE, AND CHARLES D. CHRISTIAN	109
Permanent Plastic Mounts of Nervous Tissue after Differential Gross Staining. EUNICE S. G. WATERS	114
Electronic Enumeration of Erythrocytes. GREGORY G. HOLTHUSEN, FREDERICK J. WENZEL, AND MARY ANN KIPP	118

Number 2, August 1964

Standardization of the Leukocyte Alkaline Phosphatase Test. II. Report of Clinical Studies. KENNETH P. KNUDTSON, ARDEN E. EVANGER, AND ALEXANDER R. STEVENS, JR.	121
Characterization of Proteins of Human Amniotic Fluid by Means of Paper Electrophoresis. RICHARD W. STANDER, CYRUS C. McNUTT, DAVID M. BARTON, AND CHARLES E. WERTS	125
Pools of Frozen Serum in the Quality Control in Clinical Chemistry. A. SPARAPANI AND R. E. BERRY	129
The Range of Normal Values in the Quality Control of Clinical Chemistry. A. SPARAPANI AND R. E. BERRY	133
The Postmortem Interval. A Study of Potassium in the Vitreous Humor. WILLIAM Q. STURNER AND GEORGE E. GANTNER, JR.	137
Ganglioneuroblastoma. Studies of Pathologic Changes and Content of Catecholamine. LLOYD SILVERMAN, DAVID C. DAHLIN, GERTRUDE M. TYCE, AND GUNNAR B. STICKLER	145
Effect of Pneumatic Tube Transport System on the Validity of Determinations in Blood Chemistry.	

EUGENE K. MCCLELLAN, ROBERT M. NAKAMURA, WOLFGANG HAAS, DEAN L. MOYER, AND GEORGE M. KUNITAKE	152
A New Angiographic Technic Providing a Simultaneous Permanent Cast of the Coronary Arterial Lumen. STANLEY L. ROBBINS AND SANDRA J. FISH	156
Considerations in the Histologic Diagnosis of Mycetoma. DONALD J. WINSLOW AND FRANK G. STEEN	164
Carcinoma of the Prostate Gland in Patients More than 80 Years Old. WILLIAM R. SCHMALHORST AND BÉLA HALPERT	170
Benign Rhabdomyoma of the Pharynx. A Case Report, Review of the Literature, and Comparison with Cardiac Rhabdomyoma. J. J. MORAN AND H. T. ENTERLINE	174
Intravenous Leiomyomatosis of the Uterus and Broad Ligament. Report of a Case. DAVID S. BORLAND AND JAMES W. WOTRING	182
<i>In Memoriam:</i>	
Gerald Campbell Walker, M.D. JOHN J. CLEMMER	189
News and Notices	190
Organization Section	191
Book Reviews	196
Books Received	200

Technical Section

A Technic for Preparation of Tissue Sections of Needle-Aspirated Material from Bone Marrow. MORGAN BERTHRONG AND MELVIN BARHITE	207
The Two-Tube Crossmatch. MARY STUIBER, MARGERY P. GRAY, AND DALE E. VAN WORMER	212
A Comparison of Two <i>in Vitro</i> Immunologic Tests for Pregnancy. BARBARA COON, HARVEY MENDELOW, AND HARRY DALTON	215
The Potential Danger of Inhalation of Hydrogen Cyanide when Using the AutoAnalyzer. MURRAY BRANDSTEIN, PAUL GLASS, ANTHONY CASTELLANO, AND CARMINE MEZZACAPPA	218

Number 3, September 1964

Quality Control of Determinations of Prothrombin Time. ROBERT A. BROOKS AND BRADLEY E. COPELAND	221
Studies of Nickel Carcinogenesis. Fractionations of Nickel in Ultracentrifugal Supernatants of Lung and Liver by Means of Dextran Gel Chromatography. F. WILLIAM SUNDERMAN, JR.	228
Immunoelectrophoretic Identification of Human Serum Proteins on a Cellulose-Acetate Medium. THOMAS L. NELSON, GARLAND STROUP, AND ROBERT WEDDELL	237
Papillomas of the Nose and Paranasal Sinuses. HAROLD A. OBERMAN	245
The Pathology of Primary Biliary Cirrhosis with Emphasis on Histogenesis. ARCHIE H. BAGGENSTOSS, WILLIAM T. FOULK, HUGH R. BUTT, AND ROBERT C. BAHN	259
Diagnosis of Monochorionic Twin Placentation. VIRGIL R. BLEISCH	277
Bronchial Adenoma with Hyperserotoninemia, Biventricular Valvular Lesions, and Osteoblastic Metastases. PETER JATLOW AND JACK RICE	285
An Improved Tape-Cutting Board. GUIDO CONTRONI AND MARY ALICE SAYER	295
Laboratory Suggestion:	
Multi-Agar Columns for Identifying Single Colonies of Enteric Organisms. LOIS M. BERGQUIST AND RONALD L. SEARCY	298
<i>In Memoriam:</i>	
Albert Compton Broders, M.D. JAMES ECKMAN	300
William W. Tribby, M.D. MERLIN L. TRUMBULL	302
News and Notices	303
Organization Section	310

Technical Section

A Simple Apparatus and Procedure for the Determination of Blood Alcohol. J. C. AULL AND WILLIAM M. MCCORD	315
An Evaluation of a Microdetermination of Serum Protein-Bound Carbohydrate. JOEL S. SEXTON AND J. C. AULL	320
A Modified Calcium-Cobalt Method for the Demonstration of Alkaline Phosphatase. The Use of	

Para-Nitrophenyl Phosphate as a Substrate. HOWARD H. FRANKEL AND ROBERT L. PETERS..	324
A Punch Card System for Identification of Bacteria. S. STANLEY SCHNEIERSON AND DANIEL AMSTERDAM.....	328
Laboratory Suggestion: A Cage for Use in Foster Nursing Studies with Mice. CHARLES G. CRISPENS, JR.....	332

Number 4, October 1964

Human Filariasis. Identification of Species on the Basis of Staining and Other Morphologic Characteristics of Microfilariae. HERBERT I. HARDER AND DOROTHY WATSON.....	333
Gel Double Diffusion Testing for Tuberculosis. SEYMOUR FROMAN, THOMAS S. EDGINGTON, DRAKE W. WILL, LOIS SCAMMON, DORIAN R. FABER, AND BERTRAM H. ECKMANN.....	340
Determination of Potential Pathogenicity of Staphylococci. HARRY R. ELSTON AND DONALD M. FITCH.....	346
The Chromatographic Separation, Determination, and Daily Excretion of Urinary Porphobilinogen, Amino Acetone, and δ -Aminolevulinic Acid. FRANK S. SCHLENKER, N. ANN TAYLOR, AND BETTIE P. KIEHN.....	349
Assay of Level of Hemoglobin in Plasma. ELEMER R. GABRIELI AND T. PYZIKIEWICZ.....	355
Transaminase Activity in Postmortem Cerebrospinal Fluid. WILLIAM R. DITO.....	360
A Micro Method for Determination of Oxygen Saturation by Means of Reflection Spectrophotometry. S. RAYMOND GAMBINO, HERBERT E. GOLDBERG, AND MICHAEL L. POLANYI.....	364
Increased Adsorption Affinity of Abnormal Serum Globulins in Ulcerative Colitis and Other Diseases. ELAZAR BREGMAN AND JOSEPH G. KIRSNER.....	368
Inflammatory Polyps of the Intestinal Tract. CAROL ANN KLEPINGER AND EDWIN E. PONTIUS.....	371
Hemosiderosis Restricted to the Spleen in Stillborn and Newborn Infants. BERNARD CZERNOBILSKY AND ABRAHAM M. FRUMIN.....	381
The Pulmonary Lesion in a Patient with Goodpasture's Syndrome. As Studied with the Electron Microscope. ARTHUR J. BOTTING, ARNOLD L. BROWN, JR., AND MATTHEW B. DIVERTIE.....	387
Colloid Carcinoma of Anal-Gland Origin. Report of a Case and Review of the Literature. JAMES WINKELMAN, JAY GROSFELD, AND BRADLEY BIGELOW.....	395
<i>Aeromonas hydrophila</i> as the Etiologic Agent in a Case of Severe Gastroenteritis. RICHARD ROSNER.....	402
Infestation of Echinococcus Cyst of the Liver with Trematode Eggs. A Previously Undescribed Occurrence. ARKADI M. RYWLIN AND EVE MINOVITCH.....	405
A Lack of Trypsin Effect on Chromosomes. SALLY KELLY.....	407
Letters to the Editor: The Fairleigh Dickinson University Program for Evaluation of a Hospital Medical Technology School. ROBERT BRILL AND PETER SAMMARTINO.....	408
Beryllium Case Registry. HARRIET L. HARDY.....	409
Projecting Specimens for Demonstration. TOBIAS WEINBERG AND HAROLD THOMAS.....	410
News and Notices.....	411
In Memoriam: James Persons Simonds, M.D. OPAL E. HEPLER.....	412
Josiah John Moore, M.D. EDWIN F. HIRSCH.....	414
J. Owen Blache, M.D. JAMES G. BRIDGENS.....	415
Organization Section.....	416

Technical Section

Measurement of Free Amino Acids in Plasma and Serum by Means of High-Voltage Paper Electrophoresis. C. CHARLTON MABRY AND EDMOND A. KARAM.....	421
The Role of Air in the Photochromogenic Behavior of <i>Mycobacterium kansasii</i> . LAWRENCE G. WAYNE AND JOSEPH R. DOUBEK.....	431
Chromosome Mini-Cultures. A Culture Method for Obtaining Chromosome Counts from Relatively Small Amounts of Peripheral Blood. JOSEPHINE M. CONNOLLY, KINGSLEY BISHOP, CHARLES H. CARTER, AND DONALD G. CARPENTER.....	434

Number 5, November 1964

Trace Metal Patterns in Disease States. III. Hepatic and Pancreatic Cirrhosis in Alcoholic Patients,
--

with and Without Storage of Iron. E. M. BUTT, R. E. NUSBAUM, T. C. GILMOUR, AND S. L. DI DIO.....	437
Ultrastructural Changes of the Pancreas and Liver in Cystic Fibrosis. EDUARDO A. PORTA, ARTHUR A. STEIN, AND PAUL PATTERSON.....	451
Utility of Formalin-Fixed Surgical and Autopsy Specimens for Electron Microscopy. C. T. ASHWORTH AND V. A. STEMBRIDGE.....	466
Measurements of Vanilmandelic Acid for the Diagnosis of Pheochromocytoma and Neuroblastoma. F. WILLIAM SUNDERMAN, JR.....	481
A Relation Between Metastases of Cancer and Secretion of Blood Group Substances. CRICHTON McNEIL, ELMER F. TRENTELMAN, J. NOEL LADLE, AND HENRY P. PLENK.....	498
Primary Liposarcoma of Bone. Report of a Case. RONALD L. GOLDMAN.....	503
Integration of Exfoliative Cytology into Teaching of Pathology to Medical Students. IRENA KOPROWSKA, J. E. IMBRIGLIA, AND CLARENCE NOVOTNY.....	509
Abstracts of Papers. Scientific Sessions of the Annual Meeting of the American Society of Clinical Pathologists, October 1964.....	513
<i>In Memoriam:</i>	
Paul Klemperer. ALFRED ANGRIST.....	537
Charles Donovan Tool. JAMES P. DEWAR.....	540

Technical Section

Fluorometric Estimation of Magnesium in Serum and Urine. JOHN G. BATSAKIS, FRANK MADERA-ORSINI, DALORES STILES, AND RUSSELL O. BRIERE.....	541
Electrophoresis of Serum Protein with Cellulose Acetate. A Method for Quantitation. RUSSELL O. BRIERE AND JOHN D. MULL.....	547
A Method for Rapid Staining of Acid-Fast Bacteria in Smears and Sections of Tissue. GLENN E. POTTZ, JAMES H. RAMPEY, AND FURMANDEAN BENJAMIN.....	552
An Embedding Technic for Immunofluorescent Studies of Minute Specimens of Tissue Collected with a Needle. L. BONOMO, A. TURSI, AND G. DEL ZOTTI.....	555
A Rapid and Simple Determination of Bilirubin in Infants. JEAN-PAUL BOULANGER AND LILLIAN FIERRO.....	557

Number 6, December 1964

The Identification of Intranuclear Hemoglobin. With a Combination Romanovsky and Benzidine-Nitroprusside Stain. SAMUEL GROSS AND VICKI KEEFER.....	559
Plasma Prothrombin Activation in Hemorrhagic Disorders. JOHN A. PENNER.....	561
Properties of Activity of 5'-Nucleotidase in Human Serum, and Applications in Diagnosis. MORTON K. SCHWARTZ AND OSCAR BODANSKY.....	572
Ceroid-Like Colonic Histiocytosis. EDWIN R. FISHER AND H. RICHARD HELLSTROM.....	581
Carcinoma <i>in Situ</i> of the Endometrium. ISABELLE A. BUEHL, FRANK VELLIOS, JAMES E. CARTER, AND CARL P. HUBER.....	594
Physical Properties of Amniotic Fluid in Erythroblastosis Fetalis. DAVID M. BARTON AND RICHARD W. STANDER.....	602
Odontoid Osteochondroma Causing Sudden Death. Report of a Case and Review of the Literature. EARL F. ROSE AND ANDREW FEKETE.....	606
News and Notices.....	609
<i>Editorial:</i>	
Research in Clinical Pathology. WILLIAM O. RUSSELL AND PARKER R. BEAMER.....	610
<i>Letter to the Editor:</i>	
Influenza Vaccine and Isoimmunization. GEORG F. SPRINGER, RENATE SCHUSTER, AND HARVEY TRITEL.....	612
<i>In Memoriam:</i>	
Raymond G. Gottschalk, M.D. L. WALTER FIX.....	613
Henry G. Kupfer, M.D. ROBERT J. FAULCONER.....	614
Donald R. Russ, M.D. ESTHER L. CHEATLE.....	615
Charles B. Sanders, M.D. LLOYD R. HERSHBERGER.....	616
Book Reviews.....	617
Books Received.....	619

Technical Section

437	Lactic Dehydrogenase Activity in Urine. An Evaluation of the Spectrophotometric and Colorimetric Methods. MARY F. MASSOD, ROBERT J. FRANEY, MARIE E. THERRIEN, PAUL T. RIDEOUT, AND MARY T. BABCOCK.	623
451	Detection of Hematuria with a Paper-Strip Indicator. JOHN M. BUDINGER AND MARY CAVALLO.	626
466	Analyses Performed with Heat-Coagulated Blood and Serum. VI. Direct Determination of Urate by Means of <i>o</i> -Dianisidine Oxidation. JESSE H. MARYMONT, JR., AND MORRIS LONDON.	630
481	A Graph for Use in Determining Oxygen Saturation of Blood by Means of Spectrophotometry. LAWRENCE J. HENRY AND SIDNEY V. RIEDER.	634
498	Safer Method for Preparing Radioactive Liquid Samples for Well Counting. KATHARINE L. BECK AND ALLEN SILBERGLEIT.	637
503	An Apparently Unpublished Source of Precipitates in the Prussian Blue Reaction for Iron. ELIZABETH H. SNITZER, FAYE SWEAT, AND B. GENEVA S. GRAY.	640
509	News and Notices.	642
513	Index of Subjects, Volume 42, July-December, 1964.	643
